RESUME PROFILE

I'm a versatile full-stack developer with expertise in React, Node.js, Python/Django, and C#/.NET, building secure, scalable, and user-friendly applications across web and enterprise environments. I have experience designing RESTful APIs, architecting high-availability systems, and deploying solutions on Azure and AWS. My work spans from crafting seamless front-end experiences to developing complex backend logic and database structures, always with a focus on performance, clean code, and business impact. I thrive in collaborative environments and enjoy turning ideas into polished digital products.
